

Working Title: Real Virtual Fiction

By Tom Rooker

Copyright © 2022 by [Abbott Analytical Products](#). All Rights Reserved.

This is a work of fiction that was constructed around recent historical events. The basis of this work does not subscribe to any conspiracy theory. The characters, names, locales, non-historically document events, are the work product of the author imagination or are used in a fictitious manner for entertainment purposes only. Any likeness to actual individuals whether living or historical, businesses, organizations, and locales are completely coincidental and presented for entertainment value only.

As of this time no release has been sought or obtained from James McBride, author of the novel Song Yet Sung. Passages from that novel were quoted to enhance the mysterious basis of this work of fiction.
